

The Network Certification Training Experts

Heinz Ulm Internetworking is the industry leader in providing network certification training. With highly sought after boot camps and mock labs, we are well known for helping IT networking professionals achieve CCIE[®], CCNP[®] and other network certifications.

Heinz Ulm has been conducting IT training classes since **1986**. Over **20** years of experience combined with advanced teaching methods has enabled us to design the most effective training classes available. As one of the first and few to offer a full 3 week CCIE[®] boot camp, we have prepared over 500 CCIE[®] candidates to pass the lab exam.

Heinz Ulm
CCIE[®] #1561

One of only 300 Ten Year CCIE[®]s in the entire world!

Quiet training rooms in peaceful surroundings

International students share worldwide experience

Relaxed atmosphere for open discussion and lecture

Heinz Ulm Internetworking

Heinz Ulm Internetworking has conducted classes in over 20 countries on 4 continents. Our students come from over 64 different countries. This international experience provides us with an understanding of the complex technologies and networks impacting global communications.

In addition to our famous CCIE® and CCNP® courses, Heinz Ulm Internetworking continues to expand our class offerings to include CCNA®, Wireless Security and IPv6 training. Heinz Ulm Internetworking is your end-to-end training provider; from CCNA® all the way to the industry doctorate, the CCIE®.

Experience the Heinz Ulm training advantage and let us help you achieve all of your networking certification goals.

Get trained by the best to be the best!

View what our students have to say about us at:
<http://www.heinzulm.com/testimonials.php>

Students have 24/7 access to equipment and gear. Even over the weekend days during boot camps!

Each student has his/her own gear. Courses are 90% hands on and students enjoy access without sharing.
